

## Finding Internet Explorer for Windows 10

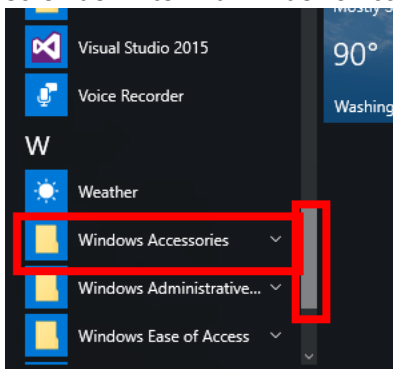

Please use the following instructions to find and pin Internet Explorer to your Task Bar in Windows 10 for future Ease-Of-Use.

Method 1:

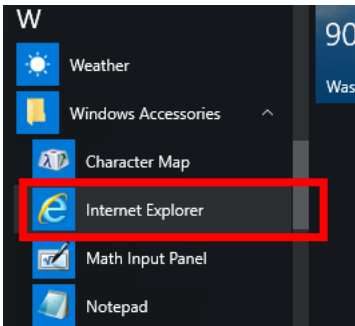

1. Click Start → All Apps.

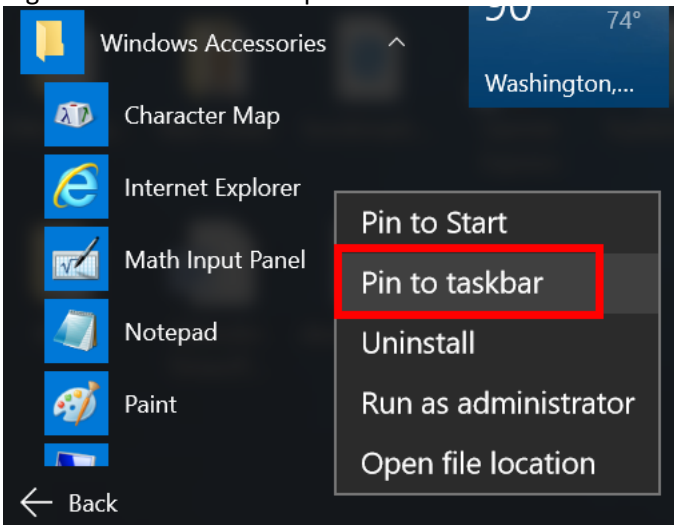

2. Scroll down to find Windows Accessories.

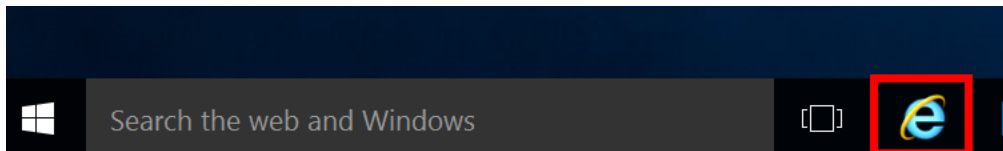

3. Click on folder to expand Windows Accessories and look for Internet Explorer.

4. Right-Click on Internet Explorer and select Pin to taskbar.

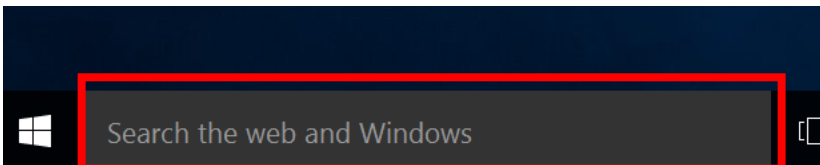

You should find the Internet Explorer icon pinned to your bottom taskbar now.

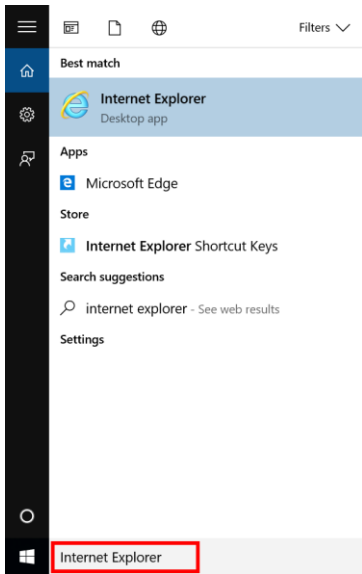

Method 2:

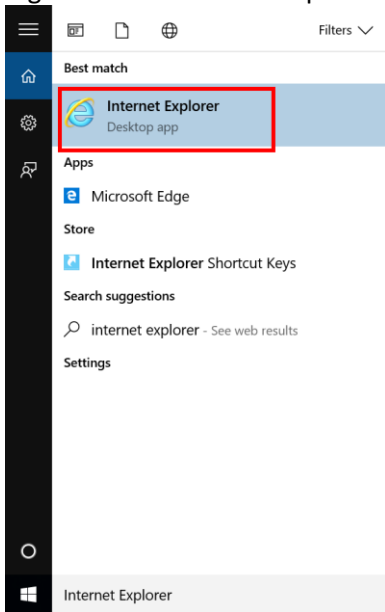

1. Click on the Search box on the bottom left of the screen.

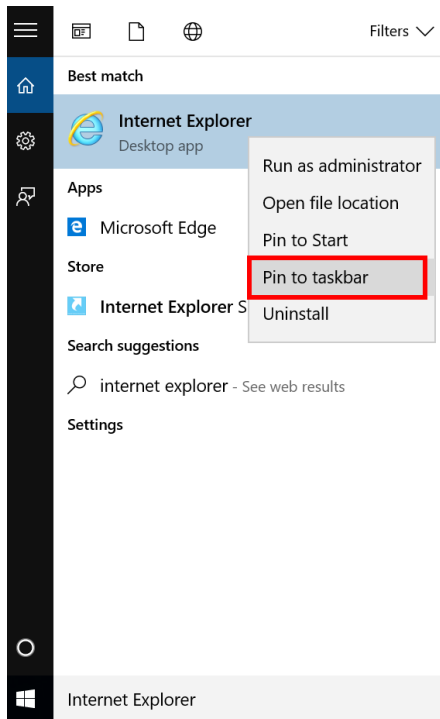

2. Enter "Internet Explorer".

### 3. Right-Click on Internet Explorer.

### 4. Select Pin to taskbar

You should now see the Internet Explorer icon on the task bar.
